## INVOLVED RESEARCHERS

---

### PROFESSOR NINA LANGELAND

Professor of infectious diseases at UiB, and consultant at Haukeland University Hospital and Haraldsplass Hospital. Involved in studies around the Giardia outbreak in 2004, the genotyping of the parasite, treatment studies and follow-up studies on the long term sequelae.

---

### PROFESSOR TRYGVE HAUSKEN

Consultant at the Section for gastrointestinal disease, Medical department, Haukeland University Hospital. Research focus on mechanisms for development of functional gastrointestinal diseases, visceral hypersensitivity and ultrasound.

---

### PROFESSOR GURI RØRTVEIT

Head of Department of Global Public Health and Primary Care at University of Bergen. Also affiliated with the Research Unit for General Practice at Uni Research Health.  
Involved in epidemiological studies of long term complications after the epidemic with a focus on abdominal symptoms and fatigue.

---

### PHD STUDENT VERNESA DIZDAR

Physician specialising in gastroenterology. Has undertaken a treatment trial and measurements of meal induced changes in duodenal signalling substances. Now focuses on importance of duodenal mucosal lymphocyte in development of abdominal sequels after giardiasis.

---

### RESEARCHER KURT HANEVIK

Specialist in infectious diseases. PhD on characterisation of post-giardiasis functional gastrointestinal disorders as well as the immune response to Giardia infection. Now involved in whole genome sequencing studies of Giardia and serological response profiles.

---

### CONSULTANT KRISTINE MØRCH

Head of Centre for Tropical Infectious Diseases and consultant at Section for Infectious diseases, Haukeland University Hospital. Defended her PhD thesis in 2010 on anti-Giardia treatment efficacy, as well as epidemiological follow-up studies of all Giardia cases with regard to persistent symptoms and risk factors for these.

---

### RESEARCHER KNUT-ARNE WENSAAS

General practitioner and specialist in family medicine. Senior researcher at the Research Unit for General Practice, Uni Research Health, and associate professor at Department of Global Public Health and Primary Care. PhD-thesis in 2011 on a cohort-study focusing on treatment and

PhD student, working on general practitioner antibiotic resistance study (antibiotic resistance and antibiotic use) and antibiotic levels in primary care (BS) (availability of testing, general practitioner & general services, antibiotic use & infectious disease control).

PhD student and specializing as general practitioner. Working on

#### PHD STUDENT KNUT ERIK EMBERLAND

GP trainee and PhD candidate at Dept of Global Public Health &

#### PHD STUDENT CHRISTINA SKÅR SAGHAUG

Master of pharmacy thesis on T cell memory cytokine responses against

#### BIOSTATISTICIAN/PROFESSOR GEIR EGIL EIDE

Centre for Clinical Research

## PARTNERS

#### PROFESSOR LUCY ROBERTSON

[Veterinærhøyskolen](#), Norges miljø- og biovitenskapelige universitet (NMBU)

## INTERNATIONAL PARTNERS

#### PROFESSOR STAFFAN SVÄRD

[Department of Cell and Molecular Biology](#), Uppsala University, Sweden.

#### DR. RER. NAT. BEATE NIESLER

[Department of Human Molecular Genetics and Institute of Human Genetics](#),
